

NORA GRUP

YHN MINING MACHINERY INDUSTRY and TRADE INC.

Established in 2014, our company is part of the Nora Group. Our operations are based in Kayseri Pinarbasi, where we carry out open-pit chromite production and enrichment.

Starting from the exploration phase, we manage the entire process up to the export stage using our own team and equipment. Within this scope, we offer the following services:

CONSULTANCY

Drilling Consultancy and Equipment Supply

Machinery supply for the Mining/Energy/Iron-Steel sectors

As a representative of leading companies from Russia, Germany, and Australia, we provide consultancy services in collaboration with them.

MINING PROJECTS - RESERVE ESTIMATION REPORTS - MINING PLANNING - SELECTION OF PRODUCTION EQUIPMENT

We offer reporting services in accordance with internationally and nationally accepted standards, such as JORC, NI 43-101, and UMREK, which are also recognized by credit rating institutions.

DRILLING AUXILIARY EQUIPMENT

- Adapter, Swivel, Hoisting and Spares
- Swivels and Spares
- Recovery Taps and Bells
- Pipe Wrenches and Jaws
- Inner Tube Wrenches
- Drum and wireline ropes

WIRELINE CORING EQUIPMENT

- Inner Tube Head and Spares
- Core Barrel/ Core Lifter
- Core Lifter Case / Core Lifter Case Casing
- Core Lifter Ring
- Stop Ring
- Centralizer Ring

DRILLING CHEMICALS

- Clay Dissolver
- Bentonite
- Polymer
- Soda Ash
- Coring Lubricant

CORING BOXES

- Plastic Coring Boxes
- Coring Box Lids
- Separators

DIAMOND and PDC PRODUCTS

- Impregnated Diamond Bits
- Core Bit Reaming Shells
- Core Protectors

DRILLING EQUIPMENT

- Tungsten Carbide Drill Bits for Drilling and Blasting Operations
- Compatible Drill Bits for Geotechnical and Hydrogeological Activities
- Specially Designed Drill Bits for Horizontal Drilling in Infrastructure Works

WELL MEASUREMENT SYSTEM

- Geotracker Well Inclination and Direction Measurement System
- High-Tech Design for Operation Efficiency

OPTIC TELEVIEWER

- High-Resolution Well Imaging
- Detailed Geological Information

DRILLING MACHINE and SPARE PARTS

- Morse Taper
- Hydraulic Motor
- Mud Pump
- Consumables for Drilling Machines

ACOUSTIC TELEVIEWER

- Characterization of Fractures, Anomalies, etc., Using Ultrasonic Waves
- 3-D well imaging

- Increases Energy Absorption Capacity of Concrete
 - Enhances Tensile and Flexural Strength
 - Improves Deformation Capability

KRATOS MACRO FIBER

Tire Reinforcement Technologies
Composite Technologies
Construction Reinforcement Technologies

The product varieties are specified in order of hardness as 1-2-3-4 *
